

Figure S1 PBS distributions of various comparisons between populations, with the African population as the outgroup. (a) PBS1, divergence of the European population from the East Asian population; (b) PBS2, divergence of the European population from the South Asian population; (c) PBS3, divergence of the East Asian population from the South Asian population; (d) PBS4, divergence of the East Asian population from the European population; (e) PBS5, divergence of the South Asian population from the European population; (f) PBS6, divergence of the South Asian population from the East Asian population. Top 5% values were set as the thresholds.
