The Cannabis As Medicine Survey: 2022

Please complete the survey below.

Progress bars will appear throughout the survey showing you how far through you are. Please note that you can save your progress at any time and return to complete the survey later. To do so you must record the User ID code provided when you select the "save and return" option at the end of any page.

Thank you! We really appreciate you sharing your experiences.

As researchers from the University of Sydney we are launching an Australia-wide online survey of people who have used cannabis for MEDICAL (therapeutic) purposes within the last 12 months. Similar surveys were conducted in 2016, 2018, and 2020, and we aim to see how things have changed since the last survey.

The survey will be anonymous and confidential: There is no way your responses can be matched to personal and/or identifying data.

The survey asks about:

1. You: your age, gender, level of education and current living and work situations
2. Conditions you have used medical cannabis to treat in the last 12 months
3. How you access and administer cannabis for medical purposes: LEGAL (PRESCRIBED) OR ILLICIT (NON-PRESCRIBED). These categories are in line with Federal legislation.
4. The extent to which you experience benefits (e.g. symptom relief) and/or problems (e.g. side effects, social or legal problems) from your use of medical cannabis.
5. How you would like cannabis products to be available for medical reasons in the future
6. Your general health and recent use of other substances.
7. How medical cannabis may have affected your driving behaviour.

PLEASE NOTE OUR DEFINITION OF MEDICAL CANNABIS: Medical Cannabis refers to any legal or illegal product (oil, capsule, spray, plant material etc) derived from cannabis or hemp. This includes products containing only THC, or only CBD, or any mixture of CBD and THC, or products where the THC/CBD content is not known.

For further details and instructions please read the participant information statement by clicking on the link below.

Please indicate your eligibility for the study below:

- I am an Australian resident over the age of 18 who has used cannabis for MEDICAL reasons in the last 12 MONTHS. I understand the definition of medical cannabis above. [Click here to confirm.](#)

CANNABIS AND OTHER DRUG USE

Please provide us with some information about how you use cannabis and other drugs

3.01 How old were you when you first tried cannabis for MEDICAL purposes?

_____ (years old (in numbers))

3.02 How old were you when you first started using cannabis REGULARLY for MEDICAL purposes? (at least once per week for a period of three months or longer).

_____ (years old (in numbers). If you have never used cannabis regularly for medical reasons please enter '0')

If you have never used cannabis REGULARLY for MEDICAL reasons please enter '0'

You said you FIRST TRIED cannabis for MEDICAL purposes when you were [q03_01_age_tried_medical] years-old but that you first started using cannabis REGULARLY for MEDICAL purposes when you were [q03_02_regular_use_medical] years-old. This does not make sense. You can't do something regularly before you do it for the first time. The age when you first tried medical cannabis must be the same age or younger than the age you first started using medical cannabis regularly. Please think carefully and adjust your answers accordingly.

3.03 In the last 28 days, please estimate how many days you used cannabis for MEDICAL reasons:

_____ (enter (0-28))

If you have not used cannabis for medical reasons in the last 28 days, please enter '0'

You have indicated you have used cannabis for medical purposes 0 days in the last 28. Please answer the following questions in relation to your medical cannabis use during the last period when you were using medical cannabis.

3.03a On an average day that you use cannabis for MEDICAL reasons, on how many occasions do you usually use cannabis for MEDICAL reasons (e.g. number of times per day)?

_____ ((max 20))

3.04 Please estimate the cost of your medical cannabis on an average WEEKLY basis in Australian dollars.

_____ (amount per week in dollars)

If you do not purchase your medical cannabis please enter zero (0).

3.05 Have you ever used cannabis for non-medical (i.e. recreational) reasons? Yes
 No

3.06 Which of the following best describes your use of cannabis before you used it for medical reasons?

I had not used cannabis non-medically before I started using it medically

I had used cannabis for non-medical reasons but had quit for a year or more before taking up cannabis use for medical reasons.

I was using cannabis for non-medical purposes at the time when I started using it medically (select one option)

3.06a Please estimate the time between your last non-medical use of cannabis and starting medical cannabis

_____ (number of months)

Please enter answer in number of MONTHS?

1 year = 12
1.5 years = 18
2 years = 24
5 years = 60
10 years = 120
20 years = 240

You said that you had quit non-medical cannabis use for a year or more before you took up medical use, but in the last question you said the time between non-medical and medical use was [q03_06a_time_between_rec_and_med_use] months.

If the gap between your non-medical and medical use was LESS than a year please go back and answer 'I was using cannabis for non-medical purposes at the time when I started using it medically' to question 3.06.

If the gap was MORE than a year, please enter a value of 12 or more for the previous question (3.06a)

3.06b Have you started using cannabis non-medically (i.e. recreationally) again since you started using it medically? Yes
 No

3.06c How many MONTHS after you started medical cannabis use did you resume non-medical (i.e. recreational) use?

_____ (Please answer in months)

2 weeks = 0.5
0.5 years = 6
1 year = 12
1.5 years = 18
2 years = 24
5 years = 60

3.07 How old were you when you first tried cannabis for NON-MEDICAL (e.g. recreational) reasons?

_____ (years old (in numbers))

3.08 How old were you when you first started using cannabis REGULARLY (at least once per week for a period of three months or longer) for NON-MEDICAL (e.g. recreational) reasons?

_____ (years old (in numbers). If you have never used cannabis regularly please enter '0')

If you have never used cannabis REGULARLY for NON-MEDICAL reasons please enter '0'

You have said that you were [q03_07_age_tried_nonmed] years-old when you FIRST TRIED cannabis for NON-MEDICAL REASONS but that you were [q03_08_regular_use_nonmed] years-old when you started using cannabis REGULARLY for NON-MEDICAL reasons. This does not make sense. You can't do something regularly before you do it for the first time. The age you first tried cannabis for non-medical reasons must be the same age or younger than the age you started using cannabis regularly for non-medical reasons. Please think carefully and adjust your answers accordingly.

You have indicated that you did not use cannabis NON-MEDICALLY before you began using it MEDICALLY, yet the age you said that you started using cannabis REGULARLY for NON-MEDICAL reasons ([q03_08_regular_use_nonmed] years-old) is younger than the age you said you started using REGULARLY for MEDICAL reasons ([q03_02_regular_use_medical] years-old). This does not make sense. Please think about your answers to these questions carefully and adjust your previous answers accordingly.

3.09 In the last 28 days, please estimate how many days you used cannabis for NON-MEDICAL (e.g. recreational) reasons.

_____ (enter (0-28))

If you have not used cannabis for non-medical reasons in the past 28 days, please enter '0'

You have indicated you have used cannabis for non-medical purposes 0 days in the last 28. Please answer the following questions in relation to your non-medical cannabis use during the last period when you were using cannabis for non-medical reasons.

3.09a On an average day that you use cannabis for NON-MEDICAL reasons, on how many occasions do you usually use cannabis for NON-MEDICAL reasons (e.g. number of times per day)?

_____ ((max 20))

3.10 On how many of the last 28 days have you used cannabis for ANY reason (i.e. either MEDICAL or NON-MEDICAL)?

_____ (enter (0-28))

If you have not used cannabis for ANY reason in the last 28 days please enter '0'

You have said that you used cannabis for MEDICAL reasons [q03_03_usage_days_medical] days in the last 28 but that you used cannabis for ANY reason [q03_10_usage_days_any] days. This does not make sense. Days' use for MEDICAL reasons can only ever be equal to or less than days' use for ANY reason. Please adjust your answers to these questions accordingly.

You have said that you used cannabis for NON-MEDICAL reasons [q03_09_usage_days_nonmed] days in the last 28 but that you used cannabis for ANY reason [q03_10_usage_days_any] days. This does not make sense. Days' use for NON-MEDICAL reasons can only ever be equal to or less than days' use for ANY reason. Please adjust your answers to these questions accordingly.

The number of days you said you used cannabis for ANY reason ([q03_10_usage_days_any] days) is greater than the combined value you entered for number of days using cannabis for MEDICAL reasons PLUS number of days using for NON-MEDICAL reasons ([q03_03_usage_days_medical] + [q03_09_usage_days_nonmed] = [daysmedplusnonmed] days). The maximum number of days' use for ANY reason can only be the same or less than the combined number of days for MEDICAL and NON-MEDICAL reasons. Please reconsider your answers to these questions and adjust your responses accordingly.

3.10a On an average day that you use cannabis for ANY reason, on how many occasions do you usually use cannabis (e.g. number of times per day)?

((max 20))

You have said that you use cannabis for MEDICAL reasons [q03_03a_times_use_per_day_medical] times per day on average, but that you used cannabis [q03_10a_times_use_per_day_any] times per day for ANY reason (i.e. including medical). This does not make sense. Number of occasions of MEDICAL use per day can only ever be equal to or less than number of occasions per day for ANY reason. Please adjust your answers to these questions accordingly.

You have said that you use cannabis for NON-MEDICAL reasons [q03_09a_times_use_per_day_nonmed] times per day on average, but that you used cannabis [q03_10a_times_use_per_day_any] times per day for ANY reason (i.e. including non-medical). This does not make sense. Number of occasions of NON-MEDICAL use per day can only ever be equal to or less than number of occasions per day for ANY reason. Please adjust your answers to these questions accordingly.

Your entry for the number of times per day you use cannabis for ANY reason ([q03_10a_times_use_per_day_any] times per day) is greater than the combined value you entered for number of times per day you use cannabis for MEDICAL reasons PLUS the number times per day you use for NON-MEDICAL reasons ([q03_03a_times_use_per_day_medical] + [q03_09a_times_use_per_day_nonmed] = [occasionsmedplusnonmed] times per day). This does not make sense. Number of times per day used for ANY reason can only be equal to or less than the combined times per day for MEDICAL and NON-MEDICAL reasons. Please reconsider your answers to these questions and adjust your responses accordingly.

3.11 Please indicate what percentage of your TOTAL cannabis use in the last 12 months use you consider to be MEDICAL use.

In other words what percentage of your TOTAL use (MEDICAL plus NON-MEDICAL) is MEDICAL?

You have indicated that you the percentage of your cannabis use that is for medical purposes is 0%. If this is true you are ineligible for the study. Please reconsider your answer to this question and adjust accordingly.

3.12 Please estimate the TOTAL cost of your cannabis (i.e. medical PLUS non-medical) on an average WEEKLY basis in Australian dollars.

_____ (amount per week in dollars)

If you do not purchase your cannabis please enter zero (0).

You have indicated that the weekly cost of your MEDICAL cannabis use is \$[q03_04_cost_in_dollars_med] but that the TOTAL weekly cost is \$[q03_12_cost_in_dollars_total]. This does not make sense. The cost of your medical use can only be LESS THAN or EQUAL to the cost of your total use. Please consider your answers carefully and answer again.

You have indicated that [q03_11_percentage_medical]% of your cannabis use is for medical purposes but that you have used cannabis for NON-MEDICAL purposes [q03_09_usage_days_nonmed] days in the last 28. This does not make sense. Please consider your answers carefully and answer again.

You have indicated that [q03_11_percentage_medical]% of your cannabis use is for medical purposes but that the TOTAL cost of your cannabis is greater than the MEDICAL cost. This does not make sense. If you used no cannabis for NON-MEDICAL reasons then the TOTAL weekly cost of your cannabis and the MEDICAL COST should be the same. Please consider your answers carefully and answer again.

3.13 Did your cannabis use change as a result of the COVID-19 pandemic?

- Yes, my cannabis use increased
 - No, my cannabis use did not change
 - Yes, my cannabis use decreased
- (Select one option)

3.14 On how many of the last 28 days have you consumed tobacco?

_____ ((0-28))

3.14 Please estimate how many cigarettes (of tobacco) you currently consume per day on days when you consume tobacco.

_____ (number of cigarettes per day)

-
- 3.14 Since starting medical cannabis my use of tobacco has:
- Markedly decreased (by 50% or more)
- Moderately decreased (by 20-50%)
- More or less stayed the same (no change greater than 20% each way)
- Moderately increased (by 20-50%)
- Markedly increased (by 50% or more)
(select one option)
-
- 3.14 Do you usually mix tobacco with your medical cannabis?
- Yes, I always mix tobacco with my medical cannabis
- Yes, I sometimes mix tobacco with my medical cannabis
- No, I never mix tobacco with my medical cannabis
-
- 3.15 On how many of the last 28 days did you consume alcohol?
- _____
- ((0-28))
-
- 3.15 Please estimate how many standard drinks you consumed per day on average (on days when you drank).
- _____
- (In standard drinks.)
- Guide:
285 ml of beer, 425 of light beer, 100ml of wine, 60ml of fortified wine and 30 ml of spirits, all = 1 standard drink.
- A full-strength can or stubby of beer = 1.5 standard drinks.
-

SECTION 4

ACCESSING MEDICAL CANNABIS

In the previous section (Section 3) we asked you about your use of cannabis, both for MEDICAL reasons (to treat a health condition) and for NON-MEDICAL reasons (e.g. 'recreational' use).

In the next section we will ask you about how you access your MEDICAL cannabis, the cannabis you use for MEDICAL reasons. We are especially interested whether you get your MEDICAL cannabis via LEGAL routes (by getting a prescription) or through ILLICIT routes (e.g. from a dealer, friend, or family member).

It is important to remind you that your responses are anonymous and confidential.

4.00 Why did you start using medical cannabis? Please select all options that apply.

- My usual medications were not working on my long-term or chronic illness
- I preferred a natural alternative to my usual medication
- Side effects of my usual medications
- While using recreationally I discovered cannabis had medicinal benefits
- It was recommended to me by a friend or family member
- It was recommended to me by a health professional (GP, specialist, allied health, holistic etc)
- I had a willingness to explore alternative health management strategies
- Other

4.00 Please tell us the other reason you started using medical cannabis

4.01 Have you ever accessed legal (prescribed) medical cannabis prescribed by a doctor in Australia?

- Yes
- No

Prescribed medical cannabis products are obtained by filling a script at a pharmacy or a chemist.

4.01 How long ago was it that you FIRST started using legal (prescribed) medical cannabis?

_____ (answer in years)

Please answer in YEARS

If you first started using legal (prescribed) medical cannabis LESS than a year ago please enter what fraction of a year. For example, if you started legal (prescribed) medical cannabis six months ago enter '0.5', if 3 months ago '0.25', if 1 month ago '0.08', if two weeks '0.04' etc.

You have indicated that you were first prescribed medical cannabis [q04_01a_whenfirstprescribed] years ago. Medical cannabis was first legalised in October 2016, which means you are saying you were prescribed legal medical cannabis before it was legal. This does not make sense. Please reconsider your answers and respond accordingly.

4.01 In the last 28 days on how many days did you use legal (prescribed) medical cannabis?

_____ (answer in days)

If you did not use PRESCRIBED medical cannabis in the last 28 days please enter '0'

4.01 Who is the main prescriber of your medical cannabis?

- General practitioner (GP) in a general health setting
- Medical specialist in a general health setting (e.g. neurologist, pain specialist)
- General practitioner (GP) in a cannabis clinic
- Medical specialist in a cannabis clinic

4.01a What is the name of the MAIN private clinic you use to access your prescribed medical cannabis?

- Cannabis Access Clinics (CA Clinics)
- Medical Cannabis Services (MCS Clinics)
- Cannabis Doctors Australia (CDA Clinics)
- Tetra Health Clinics
- Other

4.01b What is the name of the other private medical cannabis clinic you use to access your medical cannabis?

4.01c What type(s) of medical cannabis are you prescribed?

- THC only
- Mainly THC and small amounts of other cannabinoids (e.g. CBD)
- Approximately equal amounts of THC and CBD
- Mainly CBD and small amounts of other cannabinoids (e.g. THC)
- CBD only
- Unsure/Do not know
- It varies between batches
(Select all that apply)

4.01d Of the types of medical cannabis you selected in the previous question, which is the main type you use?

Note: If you only selected one option above, please select it again below.

You indicated above that you have used legal (prescribed) medical cannabis in the past, but that you have not accessed legal (prescribed) medical cannabis in the last 28 days.

The following questions will be about your use of prescribed medical cannabis during the period when you were being prescribed and using it.

4.01b Who was the main prescriber of your medical cannabis?

- General practitioner (GP) in a general health setting
 Medical specialist in a general health setting (e.g. neurologist, pain specialist)
 General practitioner (GP) in a cannabis clinic
 Medical specialist in a cannabis clinic
 (select one option)

4.01b What was the name of the MAIN private clinic you used to access your prescribed medical cannabis?

- Cannabis Access Clinics (CA Clinics)
 Medical Cannabis Services (MCS Clinics)
 Cannabis Doctors Australia (CDA Clinics)
 Tetra Health Clinics
 Other

4.01b What was the name of the other private medical cannabis clinic you use to access your medical cannabis?

4.01b How long ago did you STOP using legal (prescribed) medical cannabis?

_____ (in months (please use numbers).)

Please enter answer in number of MONTHS?

6 weeks = 1.5
 3 months = 3
 1 year = 12
 2 years = 24
 3 years = 36

You have indicated that you STOPPED prescribed medical cannabis [q04_01b_howlongagostoppedprescribed] months ago. Medical cannabis was first legalised in October 2016, which means you are saying you STOPPED legal medical cannabis before it was legal. This does not make sense. Please reconsider your answers and respond accordingly.

In the previous question you indicated that you stopped accessing legal (prescribed) medical cannabis less than one month ago, but in a previous question you answered that you used 0 days of legal (prescribed) cannabis in the last 28 days. If you DID use legal (prescribed) cannabis in the last 28 days please go back to that question and enter how many days you used. If you did NOT use legal (prescribed) medical cannabis in the last 28 days please give an answer greater than '1' for the previous question?

4.01 Please tell us the reasons you stopped using legal (prescribed) medical cannabis.

- Prescribed medical cannabis wasn't improving my symptoms
- Prescribed medical cannabis supplies became too expensive for me to afford
- Prescribed medical cannabis became difficult to access
- I became concerned about mobile drug-testing
- I became concerned about side-effects
- My medical cannabis practitioner became unwilling to keep prescribing
- I preferred using illicit cannabis
- I preferred to keep my medical cannabis use confidential from healthcare providers
- Prescribed medical cannabis was too expensive for me to continue
- Other

4.01 What other reason made you stop using legal (prescribed) medical cannabis?

4.01 For how long had you been accessing legal (prescribed) medical cannabis before you stopped?

Please enter answer in number of MONTHS?

6 weeks = 1.5
3 months = 3
1 year = 12
2 years = 24
3 years = 36

(in months (please use numbers). If less than one month please indicate, e.g. 2 weeks = 0.5 months, 3 weeks = 0.75 months)

You have indicated that you had been using legal (prescribed) medical cannabis for [q04_01b_durationprescribedbeforestopped] months before you stopped. Medical cannabis was first legalised in October 2016, which means you are saying you had been using legal medical cannabis for more time than it has been legal BEFORE you STOPPED. This does not make sense. Please reconsider your answers and respond accordingly.

4.01 What type(s) of medical cannabis were you prescribed?

- THC only
- Mainly THC and small amounts of other cannabinoids (e.g. CBD)
- Approximately equal amounts of THC and CBD
- Mainly CBD and small amounts of other cannabinoids (e.g. THC)
- CBD only
- Unsure/Do not know

4.06 You have indicated in previous answers that you have used both legal (prescribed) medical cannabis and illicit (non-prescribed) medical cannabis in the past, but that you have not used either form of medical cannabis in the last 28 days

Please tell us why you stopped using any form of medical cannabis?

- I recovered from my condition and no longer needed medical cannabis to treat it
- Cost
- I just wanted a break from cannabis use
- I was concerned about becoming dependent (i.e. addicted)
- I found the side effects were too unpleasant
- I began using other ways to treat my condition(s) (e.g. other medications, counselling, surgery, exercise, meditation)
- Cannabis stopped being effective at treating my condition
- Other
(Select all that apply)

4.06 Please tell us the other reason you stopped using both prescribed and illicit (non-prescribed) medical cannabis.

4.06 Do you still currently use cannabis recreationally (i.e. non-medically)?

- Yes
- No

4.07 You have indicated in previous answers that you have NEVER used illicit (non-prescribed) medical cannabis in the past.

Please tell us why you have never used any type of illicit (non-prescribed cannabis).

- I prefer using prescribed medical cannabis
- Cost
- I was concerned about its illegality
- I was concerned about contaminants
- I was concerned about the health consequences
- I didn't know how to obtain illicit cannabis
- I don't know what is in illicit cannabis (e.g. the amount of THC/CBD)
- I was worried what people would think of me using cannabis (i.e. stigma)
- Other
(Select all that apply)

4.07 Please tell us the other reason you have never used illicit (non-prescribed) cannabis.

4.08 In the previous questions you indicated that you have never used either prescribed medical cannabis or illicit (non-prescribed) medical cannabis. This means you are not eligible for the survey. Please consider your previous answers carefully and complete them again if you have made a mistake.

4.09 You have indicated that you have used both legal (prescribed) and illicit (non-prescribed) medical cannabis.
