

The following questionnaire is addressed to NURSING STUDENTS at European universities. The questions in this questionnaire aim to collect information about how you think, feel and act with others in the context of health care and health service environments and in academic settings. Please try to answer all questions. If you are not sure or do not have an opinion on any of the questions, please use the options "no opinion" or "not sure". There are no "right" or "wrong" answers. Completing this questionnaire is VOLUNTARY. It will take about 10 minutes. We will contact you twice more: halfway through your training and at the end of your training. To do this, we will ask you in the questionnaire for a contact email address that you regularly use and that you will keep until the end of your training. The data in this questionnaire are ANONYMOUS and will only be used for research purposes. This study complies with current regulations regarding anonymised data processing. If you have any questions, you can contact the principal investigator of the study at any time: Laura Visiers Jiménez (Centro Universitario San Rafael-Nebrija, Madrid, Spain): lvisiers@nebrija.es
