

Data Sharing Statement

Burdinski. Year-Long Cannabis Use for Medical Symptoms and Brain Activation During Cognitive Processes. *JAMA Netw Open*. Published September 18, 2024.

doi:10.1001/jamanetworkopen.2024.34354

Data

Data available: Yes

Data types: Deidentified participant data

How to access data: The data are shared with and accessible through the ENIGMA consortium: <https://enigma.ini.usc.edu/>

When available: With publication

Supporting Documents

Document types: Statistical/analytic code

How to access documents: All preprocessing and analysis code is available here: <https://github.com/burdinskid13/cannabis-paper>.

When available: With publication

Additional Information

Who can access the data: The data will be available to those researchers whose proposed use of the data has been approved by the ENIGMA consortium.

Types of analyses: The data will be made available for analyses in alignment with guidelines from the ENIGMA consortium.

Mechanisms of data availability: The data will be made available with support of the ENIGMA consortium.
